

**05/14/08**

Thank you so much for sending a very professional crew. The men were very clean and polite.

If I ever hear of someone looking for someone to have their house or business re-piped I will recommend Henrik Plumbing.

Thanks again.

**Debra Sandrouski

**05/10/08**

**Dear Henrik,**

My wife and I are very happy with the excellent service and workmanship your company provided us recently. You gave us a fair quote(it was neither the highest not the lowest) and your promised us a two to two and a half day completion in the re-piping and two days for dry walling and stucco work.

Both the re-piping crew (Vahe and Sevan) and the plastering/stucco crew (Albert and Joseph) were very friendly and competent.

We would highly recommend Henrik Plumbing to anyone who needs to re-pipe their house.

**George Quint  
23445 Ladrillo St.

**4752 Canehill Ave.**  
**Lakewood, CA 90713**  
**562-682-1747**

**1-10-08**

*Dear Gary*

Thank you for installing my new whole house water filtration system in my house over three months ago.

As a Doctor I know how important good water is for the body. I find that your water filtration system is effective at filtering out the chlorine, sediment, and dirt.

My family and I are happy with the new water filter system, since the installation we have noticed the following benefits 1, the water is clear and clean. 2 the water taste great and is refreshing. 3 when we take a shower we feel cleaner. 4 we are more comfortable knowing we are no longer absorbing all that chlorine in thru our skin or breathing the chlorine gases in the shower. 5 my daughter has commented that her skin feels better and that her hair is softer. 6 we have noticed that our clothes are whiter and our colors are brighter.

I know we have a great water filtration system, thank you for suggesting an effective and well priced water filtration system. Health and wellness are priceless, drinking clean pure water is one of the first things you can do to protect your health.

I endorse and recommend that everyone live a healthy life style, starting with pure, clean water.

**Thank you  
Dr James Kholos  
(Los Angeles)**

**1/03/08**

All work done by the Henrik re-piping team was of the highest quality. All team members were professional and cordial. All of the work was explained before and after the job was completed. Eddie, the lead man, was extremely accommodating and professional. Thank you very much.

It is our pleasure to share with you our comments concerning your personnel who re-piped our house. We found them to be most courteous, and they worked to keep our house as clean as possible. They went the extra mile to be sure that the shut off valves were in a convenient place to make it easier for us to turn the water off. The job was completed in one day. Our personal inspection found that they had done an excellent job in installing the pipe. They cleaned up the entire old galvanized pipe and hauled it away. We were

very pleased with Arthur. I believe that was his name, and his crew they did an excellent job. The work they did exceeded our expectations. We would highly recommend your company to anyone having their house re-piped.

**To all of the nice people at Henrik Plumbing**

When my wife Nancy and I noticed your ad in the telephone book we were impressed with the fact you were re-piping specialists and you did not have an extensive list of other jobs you did. When Richard came to our home and discussed the details of the re-piping with us, we gladly signed the contract.

The day of the re-piping, three nebs arrived at time and worked all day with only a ½ hour lunch break. When the Burbank City inspector arrived the next day, we told him it was a Henrik job. He said, "Yes, I know their work. It's excellent".

The third day the patching arrived at 8:00 A.M. and he worked 6 hours non-stop. He did an excellent job as did everyone working at our home.

It was the best money we could have spent. The water pressure is wonderful and my showers alone have been reduced by 50 % of time spent.

Your employees at our house were neat, respectful of our property and honest.

You have our permission to give my phone number to potential customers.

As the author of three best selling non-fiction books, I could write a book on the virtues of Henrik Plumbing. But I will condense it here so you don't have to stay up all night reading it.

My home is a one story, built in the 1950s and most of the old galvanized pipes are clogged with calcium – and – buried in the slab. What a plumber's nightmare. Six years ago, I was forced to copper re-pipe from the main and into one bathroom as there was virtually no flow. My neighbor had used Henrik and raved about them, so I got a bid from them and three other companies. Henrik came in mid range in price, but due to the enthusiastic recommendation I used them.

They had to cut through a custom stone driveway and when they left and repaired the driveway you could not tell they were ever there. But the real test came at the end of 2006 when old rotten pipes were bursting and vales leaking with my regular plumber coming to fix things almost monthly. My plumber told me I had to re-pipe the rest of the four bedroom three bath house. He gave me an estimate of \$10,000.

Of course I called Henrik. Copper re-pipe is all they do. With their expertise, they pointed out all the hidden problems as well as solutions that my plumber was never even aware of, as well as how to avoid having to pipe through the flat roof. Believe it or not, their bid was for \$5400.

Henrik told me they could complete the re-pipe in two days. Believe me, this was a monster job, and how often do people in the trades keep to schedule? Their crew of six men included an electrician. They did not walk to their truck for materials, they ran. A small section of the house has a crawl space that required a circus contortionist to get into to weld pipe. Previously, my termite inspector refused to go into it. The Henrik man crawled in, did his work, and emerged looking like the creature from the black lagoon. At the end of day two, they were gone and the next day the patch team came in and did a great job. Their crews are wonderful, trustworthy, honest guys.

This is the only re-pipe company in the world for me, and their integrity shines through. If you have any questions, feel free to call.
